SUMMARY

Final-year IT student with a 9.5 CGPA and a strong interest in full-stack development. I love building practical projects from scratch, especially using Python and Django. From creating an AI interior design tool to a digital health platform, I enjoy solving real-world problems with clean code and am looking for opportunities to learn, build, and contribute to a fast-moving team.

SKILLS

Languages: Python, Java, JavaScript (ES6+), HTML5, CSS3
Frameworks/Libraries: Django, React.js, Bootstrap, Tailwind CSS
Tools: Git, GitHub, VS Code, MySQL, PostgreSQL
Concepts: Rapid Prototyping, REST APIs, Agile Methodology, UI/UX Design
Typing Speed: 40 WPM in English (Certified)

PROJECTS

SakhiCare – Online Women’s Healthcare System

Django, Python, MySQL

- Engineered a comprehensive health platform featuring a menstrual cycle tracker, pregnancy monitoring, and an automated doctor appointment scheduling system.
- Integrated an emergency helpline and a health education module to provide accessible care resources for users in diverse environments.

Deco Genie – AI-Powered Interior Design

React, Python, AI Integration

- Developed a web application that uses AI to suggest furniture styles and wall colors based on user-uploaded room images.
- Created a "shopping-link" integration feature, allowing users to move from visualization to purchase seamlessly.

Peer-to-Peer Book Exchange

Python, Django, CSS

- Built a community-driven platform for listing and exchanging books, implementing secure user authentication and a real-time request tracking system.

NutriScan – AI

React, Node.js, PostgreSQL, AI Integration

- NutriScan is a mobile-first web application designed to bridge the gap between complex food labels and consumer health.
- The project utilizes Machine Learning and Optical Character Recognition (OCR) to scan food ingredient lists in real-time.
- It aims to provide instant clarity on nutritional safety and potential allergic risks for users.

EDUCATION

Atharva College of Engineering, Malad

Mumbai, India

Bachelor of Engineering in Information Technology

08/2023 – Present

- **Aggregate CGPA (till latest sem): 9.5** — Among the top scorers in the batch.

CERTIFICATIONS & ACHIEVEMENTS

- **CyberSecurity Hands-on Workshop:** Organized by Google Developer Groups (2025).
- **Java Programming:** Great Learning (2024).
- **Web Development Specialization:** Coursera Great Learning.
- **Academic Excellence:** Consistently ranked in the top 5% of the IT department.
- **What is IOT?:** Great Learning (2023).
